

Relax, let us handle your stress. Stressman Engineering is all about stress and the laws of physics. Ranging from simple hand calculations to advanced dynamic 3D finite element analyses, we get the job done efficiently and smoothly.

A high level of knowledge, combined with a passion for science makes us a powerful team to explore the world of stress, without limitations and boundaries.

CAPABILITIES

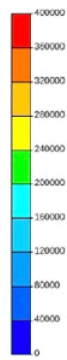

# STRESS

**Pipe Stress  
Analysis**

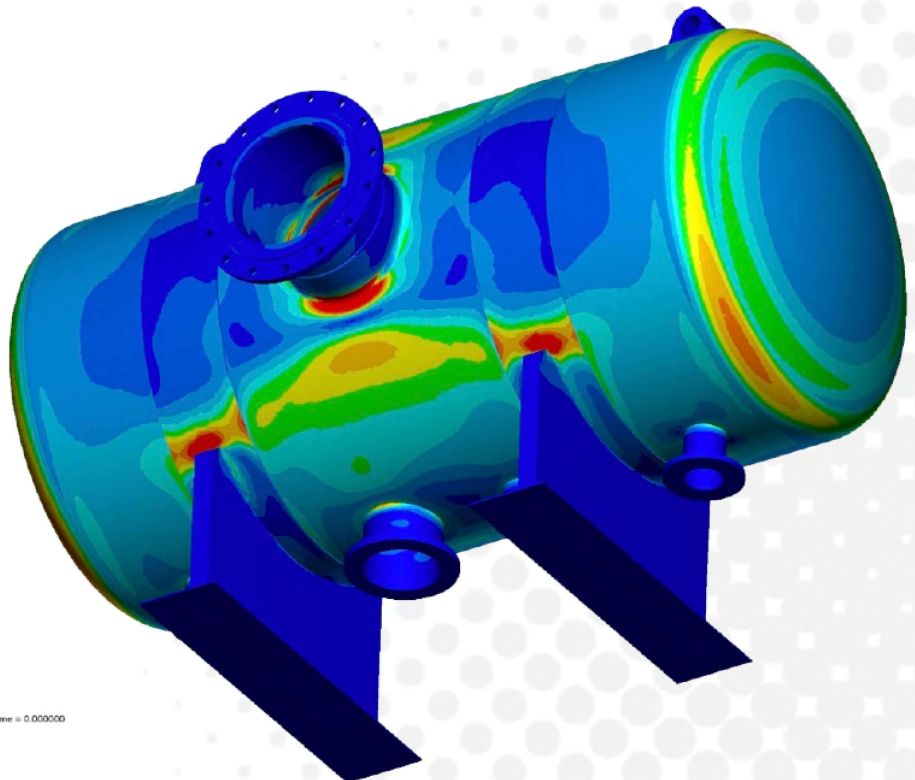

**Vessel  
Calculations**

von Mises stress (Pa)

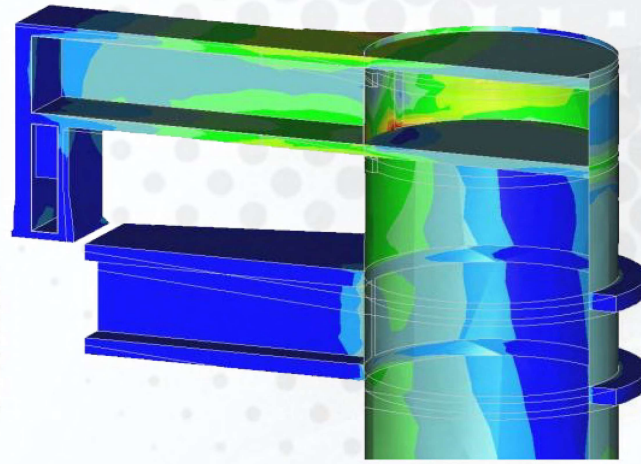

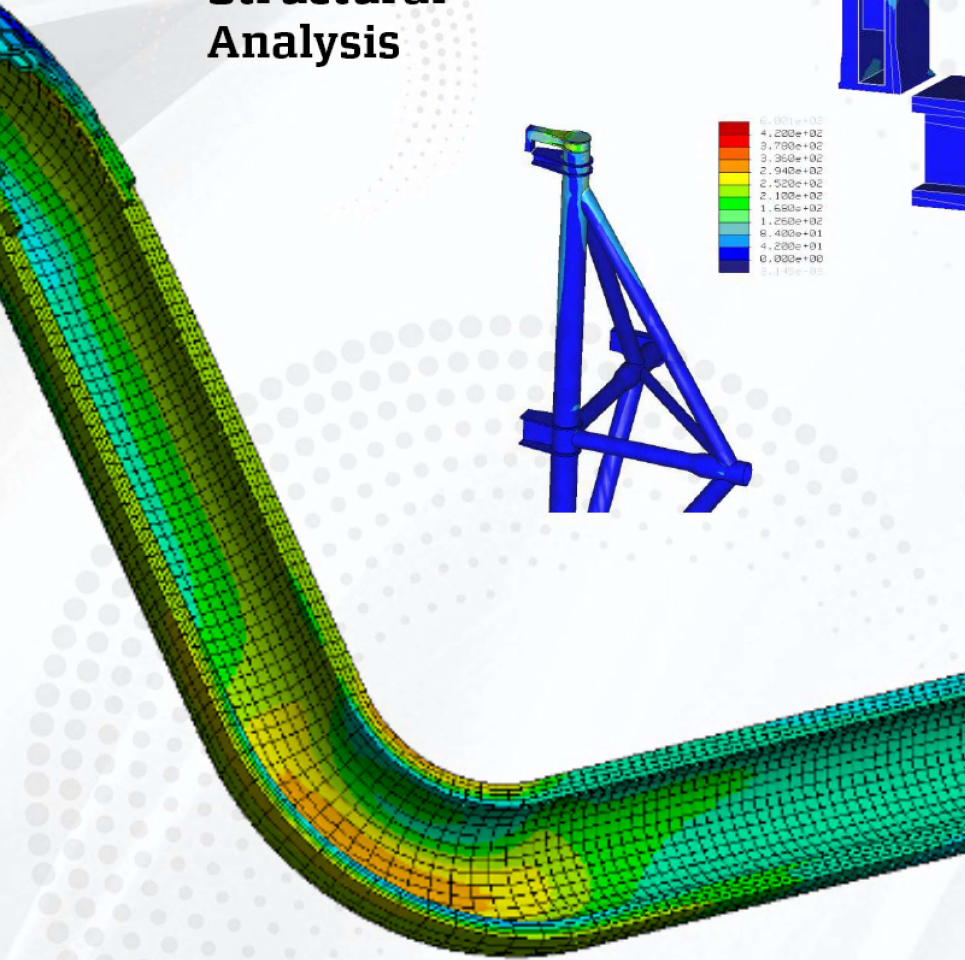

Time = 0.000000

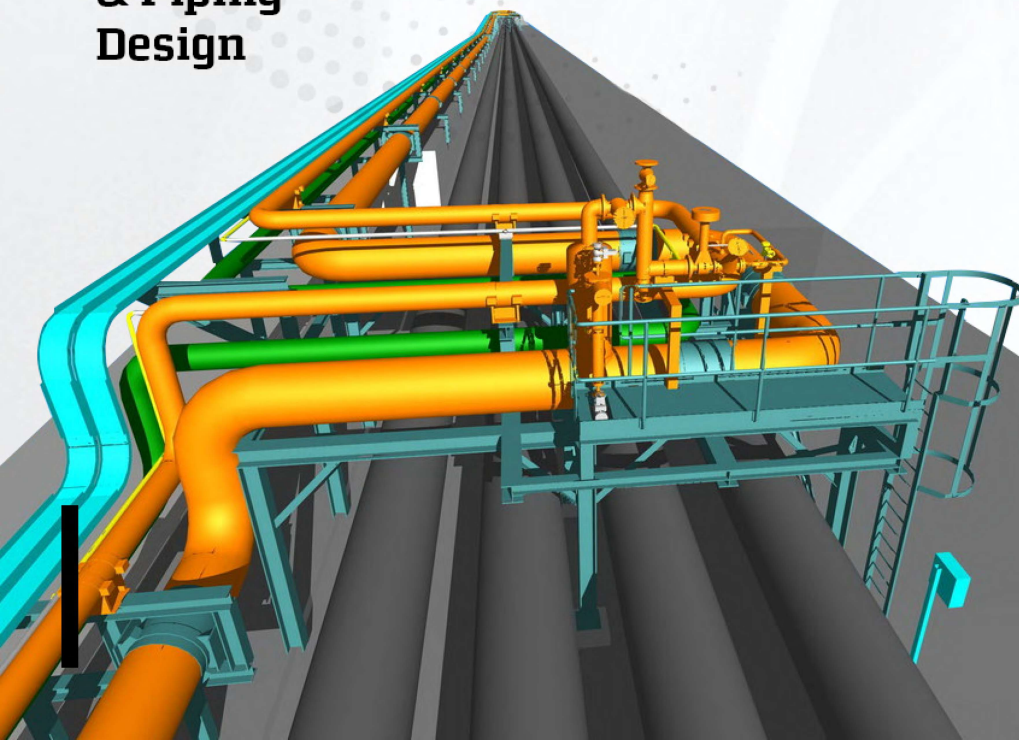

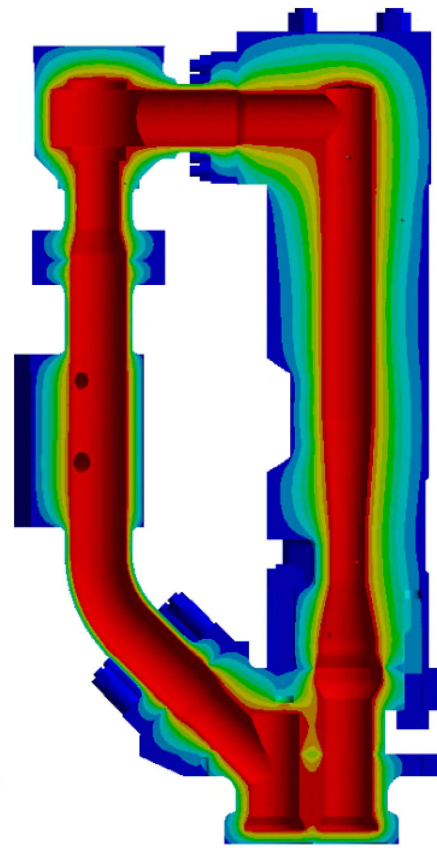

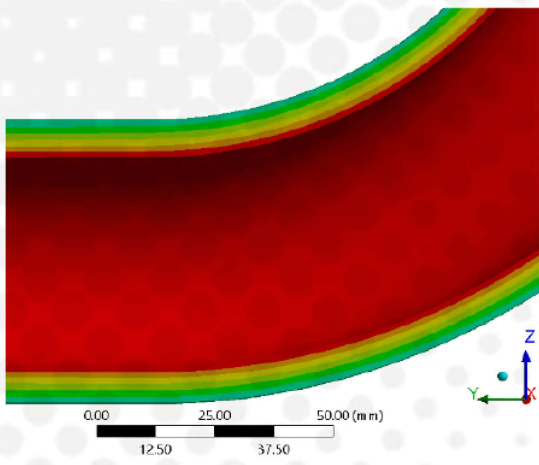

## Structural Analysis

## Finite Element Analysis

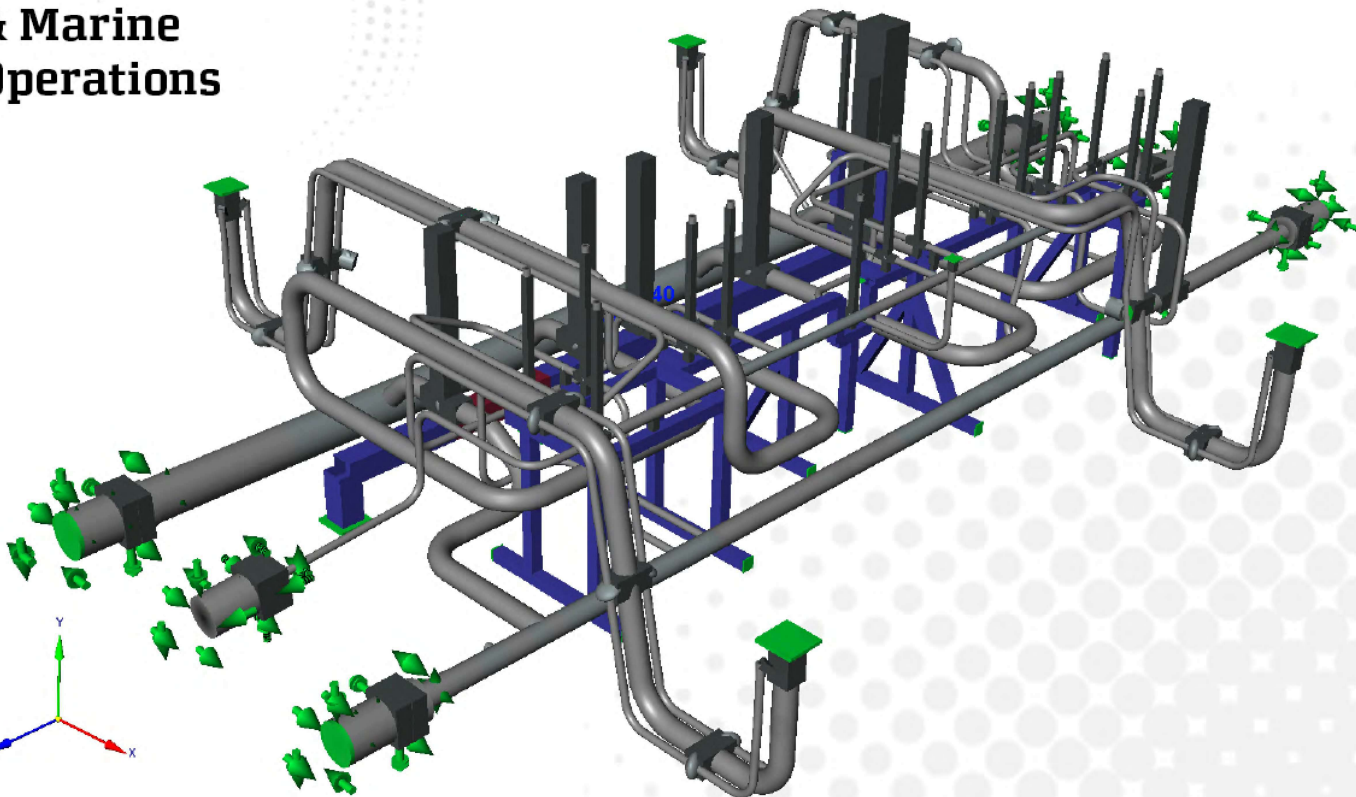

## Laser Scan & Piping Design

## Thermodynamics

## Subsea Piping & Marine Operations
